The Mélange* aluminum frame system offers a sophisticated re-imagining of a classic privacy fence for your solid architectural screening. Inserting vinyl, wood or composite boards into the sturdy framework helps create a custom look for your fence. Vary your design further, by choosing either horizontal or vertical

placement of the boards within the frame. Using Melange spacers between your infill boards, you can even create a semi-privacy style fence.

Offering greater creativity in a fence build — the Melange allows your fence to be an extension of your building's exterior textures and colors. It is the perfect choice for yard enclosures or to hide mechanical equipment, HVAC units, transformers, dumpsters or pool equipment. The Melange can be a fence that is truly unique to you — all while protecting what you love.
